KRAJINA KLAS d.o.o.

Product Owner (m/f)

Organising product development - Product owner

If you are with or without IT background, we offer you an interesting and exciting position in our team.

Industry process management software development team by Krajina Klas is looking for a Product Owner to join the software development team.

The software we are developing is a world-class industry process management software and is already powering Krajina Klas to achieve significant savings and optimizations.

To finish the software and model it as a software product we are looking for a person who will be:

- Responsible for product vision
- The final arbiter of requirements questions
- The single person responsible for maximizing the return on investment (ROI) of the development effort
- In a leadership role

You will:

- Constantly re-prioritize the Product Backlog, adjusting any long-term expectations such as release plans
- Accept or reject each product increment
- Decide whether to ship or to continue development
- Consider stakeholder interests

Qualifications for this position are:

- Excellent communication skills
- Works in an organized and structured way
- Autonomous in nature
- Excellent listening skills
- Analytical mind
- Dedication to details
- Making data-driven decisions
- Result oriented and have a problem-solving attitude
- Ability to present idea - excellent presentation skills
- Eager to learn and to take initiatives
- Team player

Having experience with this position is considered a big plus!
