# PHP Lead Developer

PHP Lead Job Description

We are looking for a PHP Tech Lead who is interested in building services. PHP Tech Lead responsibilities include participating in the full software development lifecycle and empowering the team to work with quality. If you are equally comfortable rolling up your sleeves to plan, design, lead and execute technical solutions and enhancements, we'd love to meet you.

As a fast-growing venture builder, we offer the experience of working on a variety of different products, technologies, and challenges to overcome. This means you will have the appetite to constantly learn and improve your skills and knowledge. It is important that you have an analytical mindset and can work well under pressure, as will be the case from time to time.

Job Title: PHP Tech Lead

Reports to: VP of Engineering
Attributes: Analytical mindset
Problem solver
Self-driven
Team player
Good communicator
Responsibilities:
  - Code Quality Assurance
  - Develop Technical Specifications and architecture
  - Ensure Code Review Healthiness
  - Control technical debt
  - Encourage collaboration and engagement
  - Deliver good quality code quickly
  - Document progress report
  - Delegate work and tasks to team members
  - Work with the team to identify and fix technical issues
  - Analyze user needs and then find applications that meet those needs
  - Create end goals for the team
  - Verify that software and applications are up to date
  - Monitor system changes
  - Conduct security audits to identify areas of improvement
  - Lead the team through technical issues and challenges
Required Knowledge:
  - 3+ years of professional experience as a PHP developer
  - 2+ years of experience as a Tech Lead or other Engineering Manager role.
  - Independence in decision making
